# QL A 50

# QL A 75

|                  |   |
|------------------|---|
| Lifting capacity | Max 50 kg (QL A 50), max 75 kg (QL A 75)  |
| Lift motor       | Infinitely variable torque motor  |
| Manoeuvring      | Manoeuvring is done with KAHLMAN's patented manoeuvring handle. The handle is sensing the operator's hand/arm movement and gives a very exact and smooth speed control. Only a force equivalent to 20 gram is needed to engage the Up/down motion. When the operator let go of the handle, the up/down motion is immediately stopped. |
| Power supply     | 400-480V, 50-60 Hz, 3-phase, 3A   |
| Stroke length    | 2,3 meter   |
| Hinged arm       | Made in painted aluminium profiles with a total length of 3.2 m up to 5 m depending on the maximum load. The position of the fixated lifting motor is carefully designed and tested to give optimum manoeuvrability of the hinged arm.  |
| Suspension       | Floor pillar in painted steel with a standard height of 3 m. Optional pillar heights up to 5 m depending on customers need. Also available is a wall or ceiling mounted bracket in painted steel.   |
| Gripping device  | Grippers are designed to fit customer's need. Intelligent I/O signals are available for optimum functionality.  |
