

The Ergoperfect 3815 ESD is the professional solution with extremely high seating comfort for users in ESD-working environments.

The EP3815 ESD offers:

- Ergonomically molded seat and back with high-tech fabric
- Gas height adjustments: 3 cylinder sizes for seat heights ranging from 15" to 31"
- All parts are approved in accordance with current ESD norms
- 5 point star bases for maximum stability
- Sliding seat.
- Levers for fully independent adjustment of spring controlled seat and back tilt with handle.

5-Year Warranty!

Ergomat's ERGOPERFECT furniture line is conditionally warranted against component failure for 5-years from the date of purchase. This warranty is void in cases of abuse or when product is used outside published specifications. Please consult your dealer or Ergomat representative with any questions about use of the ERGOPERFECT line under specific environmental conditions.
