

The Ergoperfect 500 is the best sit / stand for use in an industrial environment. Easily adjustable for maximum comfort, the EP500 will relieve legs and joints from the pressure of working in a standing position.

The EP500 offers:

- 18" diameter chrome trumpet base standard

- Seat height adjustable from 21" to 31"

- Seat pitch adjustable from 3° to 17°

- 5 point star bases available with 2" glides to increase maximum seat height.

5-Year Warranty!

Ergomat's ERGOPERFECT furniture line is conditionally warranted against component failure for 5-years from the date of purchase. This warranty is void in cases of abuse or when product is used outside published specifications. Please consult your dealer or Ergomat representative with any questions about use of the ERGOPERFECT line under specific environmental conditions.
