

The Ergoperfect 600 is a simple, sturdy and stable chair that follows the body's movements in a natural way. The EP600's modular components make it highly adaptable to almost any requirements.

## The EP600 offers:

- Highly adaptable modular component system. See reverse for all options.
- Seat height adjustable from 21" to 31".
- Upholstered in stain resistant Wild Heather fabric.
- 5 point star bases available with 2" glides to increase maximum seat height.

## 5-Year Warranty!

Ergomat's ERGOPERFECT furniture line is conditionally warranted against component failure for 5-years from the date of purchase. This warranty is void in cases of abuse or when product is used outside published specifications. Please consult your dealer or Ergomat representative with any questions about use of the ERGOPERFECT line under specific environmental conditions.
